Update

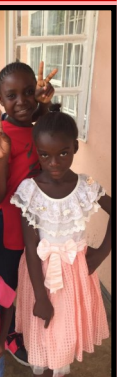

This Year was Hard, but they didn't stop Smiling!

This past year has been a tough year for everyone, including our girls in the CMF. Luckily we have amazing sponsors, caretakers, and a Sovereign Lord who watches over all things. When school was cut short in March of 2020, we didn't know what we were going to do.

As most of our country turned to Virtual Learning, that was not an option for many children around the world. We are falling behind in school, our learning goals, and test scores. We ask that you pray for continued and added support of our program so these young ladies can continue their education, get the extra help they need, and thrive within their community.

House Update!!

We are so pleased to announce a portion of your help has gone to building a larger kitchen for the girls! The previous kitchen had limited room for everyone to gather, but now Mama Nolly and all the Girls can sit together in community to eat, do homework, and be near one another.

Girls with the help of the ministry from the local Health Dept. have a hand washing station for after school!
